THE POWER OF SMALL GROUPS UNLEASHED

Would you like to experience the nourishment, satisfaction, and fulfillment that a small growth group experience can bring to your life? Join us for an introduction to the life-transforming power of personal growth work as it's done at CLE.

This training will give you a taste of group work at CLE as we focus on four key elements that will increase the potential for personal transformation, authenticity and aliveness in any small group setting.

These elements include:

- **Learning how to meaningfully connect with yourself.**
- **Tapping into the power of feelings**
- **Sharing genuinely and effectively with others.**
- **Tasting the life changing influence of truthful feedback.**
