## SECRETS TO ABUNDANT LIVING

Join us for this interactive workshop and learn the *secrets to abundant living* that CLE has discovered during its 15+ years serving the Northbrook and North shore communities. These foundational strategies will transform the way you look at yourself, your work, and your relationships giving you a deeper sense of self-knowledge and ability to create meaning in your life.

Understanding yourself and those around you with deeper clarity and depth is a challenging art to master, and yet is vital to being a more effective leader and a more influential person. These simple yet powerful tools are designed to do just that- increase your levels of self-understanding with dynamic clarity.

Beginning to understanding human thought and emotion will:

- Enable you to more accurately connect with yourself and others.
- Equip you to have the positive impact you seek to have with your family, with your friends, and in the world.
- Allow you the freedom to choose and create abundance and meaning in your relationships.
- Increase your capacity and willingness to envision and grow into your innate potential.

### When

Saturday June 4th, 12-2pm
