THE WRIGHT DEVELOPMENTAL MODEL UNPACKED

Join us for this workshop designed to help you learn how to maximize the potential of the Wright Developmental Model (WDM) for Personal Transformation. The WDM is a powerful tool enabling you to identify where you are in your personal growth work and make sense of why you do what you do.

Understanding yourself and those around you with deeper clarity and depth is a difficult art to master, and yet is vital to being a more effective leader and a more influential person. Few tools exist that explain human growth and development more clearly than the Wright Developmental Model. The WDM was developed by Bob Wright through years of research, practice, and study. Rich Blue has studied with Bob Wright for over 20 years and has an intimate understanding of the WDM.

Understanding the levels and stages we all go through will enable you to more accurately connect with yourself and others. It will equip you to have the positive impact you seek to have in your family, with your friends, at work, and in the world.

Grounded in existential principles, cutting edge research, and the emotion of the human experience, this powerful tool must be a part of your leadership resources.

When

Saturday April 16th 12-3pm

Cost

\$95 per person

Registration
